

Section III

Creatica

Children always have a creative mind.

In the Creatica Section, parents and their children will experience the fun of doing activities that require more manipulative ability than before. You can always meet creativity team from international schools of different ages.

Just a reminder, there will be lectures presented by four famous young geniuses.

Application Guide

Space for each booth is 2m*3m, includes 1 table and 3 chairs

Booth is free for individual makers and maker organizations.

500 rmb each for business makers (individuals who sell things during the exhibition)

2500rmb each for companies.

The organizer will examine the applications and arrange the booth.

Section IV

Smart Lifestyle

What does the life in the future look like?

Maybe, your mug will remind you of drinking water, tennis racket will tell you the serving speed and swinging power, your phone will be able to unlock your home door. You will face more than 50 thousand general users, not only geeks, to test your product and communicate with other makers.

Application Guide

Booth is free for individual makers and maker organizations.

500 rmb each for business makers (individuals who sell things during the exhibition)

2500rmb each for companies.

The organizer will examine the applications and arrange the booth.

* Companies will be mixed with other projects in order to show your service and products to the makers.

Section V

EXHIBITION

Robotics

Makers have made all kinds of robots, from Star Wars to Transformers and then to superheroes. There is a chance to take a photo with Team 501 from Star Wars, chat with the producer of robots, or ask the robot to talk with you or do the laundry, cleaning, and cooking even help with your homework. For sure there are metal toy collectors and large machines that crawl.

Section VI

LED STUFF

LED, LED, LED, those that light up the night sky are not just fireflies. Making bicycle tires play animation, making wishing bottles sing and shine, and remotely controlling your robot fireflies through your phone are all possible. The dark room is filled with different colors of makers' lighting projects.

Section VII

EXHIBITION

Robot Competition Stage

Have you seen a robot competition, or manipulated a robot by yourself in a competition? Maybe you have seen them in a science fiction film, so why don't you come and attend a live show of robot competition?

Application Guide

Free.
